SWEDX Kiosk Digital Signage

Digital Signage

SWEDX Kiosks are suitable for various types of businesses such as airports, train stations, hotels, shopping malls etc. to display different types of digital content such as information or advertisements

Photos and Video

SWEDX Kiosks are advanced yet user friendly to playback of photos or video. You can create your own playlists and choose from 20 different types of transition effects and image display time. The SWEDX Kiosks execute the tasks automatically

Timer

There are many advantages using the TIMER function. It saves electricity costs, which is good from both an environmental and economic standpoint. In addition, it extends the product's life. 5 different on / off settings can be set. Built-in battery to save the settings

Smart HDMI!

Smart HDMI which allows the product to start automatically when it receives the HDMI signal and turns off when the signal is gone. This feature is very useful when you connect an HDMI source

Thinnest in the World

The SWEDX Kiosks are the thinnest of its kind in the world. The thickness of 3.7 cm along with environment friendly material painted in glossy outlook provides prospective outlook

After Sales Service Friendly

The main control unit is exchangeable meaning if the product fails then replacing the control unit will in most cases solve the problem. This will save both time and money
